

Infiniti® High Efficiency Tankless Gas Condensing Water Heater

Features

- **SRT™ Scale Reduction Technology**—Significantly reduces the incidence of scale build-up known to result in poor performance, additional maintenance, and premature component or product failure.

Additional Details

- **Complies with the latest Ultra-Low NOx requirement (14 ng/J NOx limit).**
- **Built-in Digital Control**—Front control panel (100 -140°F) (38°- 60°C). Can store up to 10 previous error codes. Multiple indicators for ease of monitoring.
- **High Temperature Kit (Optional)**—Optional high temperature kit allows for a maximum setpoint up to 184°F (84°C).
- **Active Bypass**—Achieves superior temperature stability.
- **Intelligent Cascading Kit (Optional)**—Up to 24 units can be connected together with ease.
- **Built In Freeze Protection**—Activates automatically when the water heater is plugged in.
- **Interior and Exterior Installation Capability**—Outdoor installation requires optional outdoor kit. Recess box and pipe enclosure available.
- **Easy Installation and Service Features:**
 - Venting Flexibility—Common venting, PP, PVC, CPVC and ABS approved venting material (refer to I&O manual for details). Altitude tested up to 8000 ft. (2438m).
 - Gas Connection Flexibility – 1/2" (13mm), 3/4" (19mm), or 1" (25mm) connections permitted (refer to I&O manual for details).
 - Space Saving Installation – Compact size for tight installations.
 - Inlet Water Filter – External access for easy maintenance.

12-Year Residential Heat Exchanger Warranty / 5-Year Limited Parts Warranty.

For more information on warranty, please visit www.bradfordwhite.com

For products installed in USA, Canada, and Puerto Rico. See complete copy of the warranty included with the heater for limitations.

Infiniti[®] High Efficiency Tankless Gas Condensing Water Heater

SPECIFICATIONS

Natural Gas and Liquid Propane Gas

These water heaters meet or exceed all or portions of (where applicable) the minimum efficiency requirements of ASHRAE Standard 90.1 (latest edition).

Model Number	Installation	Nat. BTU/Hr. Input	LP BTU/Hr. Input	Vent Conn. in.	GPM Flow Rate at °F Temperature Rise			Uniform Energy Factor Nat. and LP	Minimum Water Flow GPM	Maximum Temperature Setting

For Propane (LP) Models change suffix "N" to "X". Requires an electrical power supply from a 120VAC 60Hz., properly rated receptacle and must be properly grounded. Power supply cord provided.

* Outdoor installation requires optional outdoor kit. Uniform Energy Factor is based on the latest AHRI directory listings.

Intelligent Cascading Kit: Up to 24 units can be connected together with ease. Part No. 7736502750 (One for each additional water heater).

GENERAL:

All potable water connections are 3/4" (19mm) NPT. Gas connections are 3/4" (19mm). Recommended gas pipe size is 3/4" (19mm), for other gas pipe sizes please consult installation and operation manual.

Suitable for Water (Potable) Heating and Space Heating. Toxic chemicals, such as those used for boiler treatment, shall NEVER be introduced into this system. This unit may NEVER be connected to any existing heating system or component(s) previously used with a non-potable water heating appliance.

Dimensions and specifications subject to change without notice in accordance with our policy of continuous product improvement.
